Filters

Komatsu genuine filters are engineered specifically for Komatsu machines and that is why they are the easy choice but **did you know** they can actually save you money over the life of your machine.

At McHale Plant Sales we provide the full range of Komatsu filters including Engine Oil, Fuel and Hydraulic Filters and **did you know** that the Komatsu combination filtration in Engine Oil Filters provides maximum protection and up to 50% reduction in engine wear.

**Go for Komatsu genuine filters.
Your machine deserves the best!**

Undercarriage Parts & Service

Did you know that undercarriage inspections can be carried out by your McHale representative free of charge and tailored to your individual needs. By carrying out an undercarriage inspection we aim to maximise your undercarriage life and reduce replacement costs and unplanned downtime for your machine.

Ground Engaging Tools

McHale Plant Sales can offer specialist advice on the full scope of GET solutions to help you achieve maximum output from your site.

Did you know that Hensley & K VX are now part of the Komatsu group?

Hensley

Hensley have been manufacturing GET since 1947 and have become famous for exacting fit, long wear, intelligent design and outstanding service. Hensley offer a comprehensive range of GET for standard or tailor made earthmoving applications.

K VX

K VX offer the highest quality GET system specifically designed for extreme applications and when applied scientifically can cut costs and reduce machine downtime more than any comparable system.

Lubricants

Did you know that Komatsu Oil & Wear Analysis helps:

- Avoid engine failures,
- Detect other potential problems,
- Prevent the expense of downtime and unplanned repairs,

Komatsu engineers can visit your site and carry out an Oil & Wear Analysis and the information can be stored on www.komatsu-kowa.com, used to identify trends over time and document good maintenance practices for your machines.

At McHale Plant Sales we provide the full range of Komatsu lubricants including Diesel Engine, Hydraulic, Powertrain, Axle & Supercoolant Oils, which help reduce consumption, lower maintenance costs and extend the life of your equipment.

Did you know that Komatsu lubricants are on average 28% cheaper than our closest competitor*.

* Percentage calculated on three oils in 15W40, 10W & TC30 all in 20 Litre drums.

McHALE
Plant Sales Limited

“Over the years, we have used a multitude of sources for machine parts, including spurious suppliers as well as the genuine article. For our Komatsu fleet of excavators and bulldozers we quickly learned the benefits of using genuine Komatsu parts. Experience has shown us that the longevity and durability of Komatsu parts are far superior on a ‘euro for euro basis’ and represent the ultimate in value for us”.
