

Barnes Limestone Quarry Ltd. take delivery of new Komatsu WA470-6

Limestone quarry operators, Barnes Limestone have acquired a new Komatsu WA470-6 Wheel Loader for use at their quarry in Letterkenny, Co Donegal, which is owned and run by the Bonar family including Patrick and son P.J.

Taking delivery, driver Drew Russell commented “it is the perfect choice for applications that demand high productivity and whatever the job, the Komatsu Wheel Loader can handle it”. Quarry owner Patrick Bonar said of his new purchase “the Komatsu WA470-6 is now the only loading shovel in the quarry so it is imperative that we have the ultimate in quality and reliability”. He added “we were extremely pleased with our first Komatsu Wheel Loader, the WA470-5, which made the decision to purchase the dash 6 and easy one. The WA470-5 has since been moved to lighter duties at our concrete block making facility in Letterkenny”.
